Onderwerp: RE: Open item Short summary discussed items during call with RCE and Rijkswaterstaat regarding Archeology NeuConnect

Dear all,

I agree with the points below.

But JUST TO BE SURE: 'That version will then be sent for review to RCE and will be regarded as a desk study'

Next version will be the first draft which can be checked thoroughly. So this will be the draft both RCE and RWS (my colleague Janneke) will be checking.

Best regards

Patricia

- Wessex will process the comments of RCE dated 19 March 2021.
- Where necessary/ convenient, direct contact can take place for coordination between RCE and Wessex whereby the following persons are in cc: Patricia Schouten (Rijkswaterstaat), Janneke Bos (Rijkswaterstaat) and Natascha Schuttinga (AECOM).
- The aim is to have an updated internal version ready by 23 April.
- That version will then be sent for review to RCE and will be regarded as a desk study. The current version of the report does not yet meet this requirement.
- The permit that will be drafted will then include a regulation stating that, for example via the Work Plan, further research must be conducted prior to the start of the work, meeting the Dutch requirements for archaeology.

Onderwerp: RE: Open item Short summary discussed items during call with RCE and Rijkswaterstaat regarding Archeology NeuConnect

Beste Johan, Patricia en Janneke,

Kunnen jullie me nog laten weten of onderstaande punten akkoord zijn voor jullie en tevens of we op het laatste punt ('Kunnen

er naast de opmerkingen die Wessex op 19 maart van RCE heeft ontvangen nog andere opmerkingen worden verwacht, bijvoorbeeld over het onderdeel geo-archeologie/paleo, aangezien wij begrepen hebben dat de specialist dit onderdeel van het rapport misschien niet heeft bekeken, gezien de korte reactietijd op 17 maart? (vanuit het uitgangspunt dat het archeologierapport als een desk top rapport zal dienen)' nog iets kunnen verwachten alvorens we een aangepaste versie aanleveren ?

Can you still let me know if the points below are acceptable to you and also if we can expect any other comments on the last point ('Can we expect any other comments besides those Wessex received from RCE on 19 March, for example on the geoarchaeology/paleo section, as we understand that the specialist may not have looked at this part of the report, given the short response time on 17 March? (from the point of view that the archaeology report will serve as a desk top report)' before we submit an adapted version ?

Bij voorbaat onze dank en alvast een prettige Koningsdag morgen,

Kind regards, met vriendelijke groet

Aecom Netherlands B.V.

Subject: Short summary discussed items during call with RCE and Rijkswaterstaat regarding Archeology NeuConnect

Dear Johan, Patricia and Janneke,

Please find the below a short summary in bullets that reflect our understanding of the points discussed during the meeting we had last Friday on the archeology chapter(s) of NeuConnect:

During the MS Teams consultation today 16 April 2021 between representants of RCE, Rijkswaterstaat, Wessex and AECOM, the following was discussed and agreed:

- Wessex will process the comments of RCE dated 19 March 2021.
- Where necessary/ convenient, direct contact can take place for coordination between RCE and Wessex whereby the following persons are in cc: Patricia Schouten (Rijkswaterstaat), Janneke Bos (Rijkswaterstaat) and Natascha Schuttinga (AECOM).
- The aim is to have an updated internal version ready by 23 April.
- That version will then be sent for review to RCE and will be regarded as a desk study. The current version of the report does not yet meet this requirement.
- The permit that will be drafted will then include a regulation stating that, for example via the Work Plan, further research must be conducted prior to the start of the work, meeting the Dutch requirements for archaeology.

Please let me know if you agree with the above bullets and our understanding.

In addition to above, we have another question, to be sure we cover everything in the next Archeology report version and Chapter 10 of the EIA:

- Can other remarks -apart from the ones Wessex received 19 March from RCE- be expected like on the geo-archeology/paleo part as we understood the specialist may not have looked at this part of the report given the short response time 17 March? (from the starting point that the archeology report will serve as a desk top report)

As I do not have the email address of Mrs. Bos, could someone kindly forward this email to her ?

Many thanks in advance,

Kind regards,

Natascha Schuttinga
